

## Accelerating high school credit recovery like never before

## Helping districts to retain and recruit students with the Accelerated High School Credit Recovery program

Retention and recruiting have been a continuing challenge for alternative education and credit recovery programs throughout the country. The reasons are numerous and complex. However, the leading reason is the amount of time it takes to earn credit. Most credit recovery programs are based on traditional learning models. We have a dynamic solution.

- 1 Students take a Centric Learning assessment / placement review, which could provide partial credit
- 2 A counselor and / or mentor (provided by Centric Learning or your school) assists students in designing the shortest pathway to credit attainment accelerating the process by 50% and possibly more
- 3 Each student is supported by a mentor and tutor (ours or yours) to assist in maintaining focus on this dynamic journey. This support system is also instrumental in accelerating learning. A powerful mentor and tutoring model is a proven success for the WAY Academies.
- 4 We also offer training and professional development to staff to serve effectively in these roles.

# Accelerating high school credit recovery like never before

## What if we could fast track high school credit recovery? We can help districts retain & recruit students

- 1 Students take a Centric Learning assessment / placement review, which could provide partial credit
- 2 A counselor and / or mentor (provided by Centric Learning or your school) would assist students in designing the shortest pathway to credit attainment accelerating the process by 50% and possibly more
- 3 Each student is supported by a mentor and tutor (ours or yours) to assist in maintaining focus on this dynamic journey. This support system is also instrumental to increasing the acceleration process. A powerful mentor and tutoring model is a proven success for the WAY Academies.
- 4 We also offer training and professional development to staff to serve effectively in these roles.
