

People Everywhere

A photo essay of population changes in the US

Columbian Exchange

The Columbian Exchange was the transfer between the Americans, Europeans and Africans of plants, animals, fruits, diseases, costumes, ideas and cultures.

Industrial Revolution

The industrial revolution was a period that is characterized by the development of the steam machine and by the big advance in technology and in the industries.

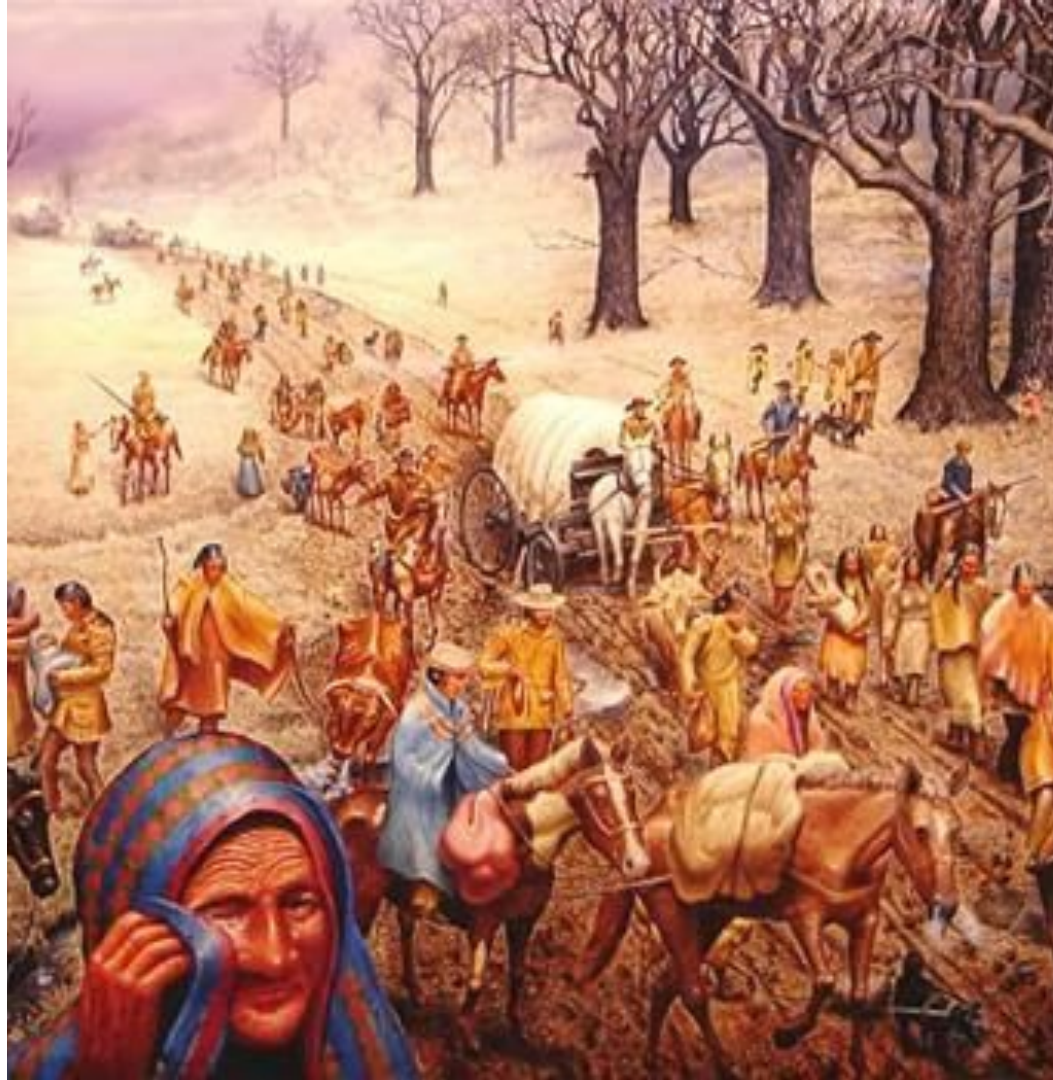

Westward Movement

Was the movement of settlers,
agriculture and industry to the
America West Side.

Trail of Tears

The Trail of Tears was a forced migration of the Indian tribes from the South and the Southeast.

Modern Technology & Medicine

The Modern Technology and Medicine was a great advance to the humanity because changed the way of living and the age that people died.

Urbanization

Urbanization is the change of an area with rural characteristics to an area with urban characteristics. This is related to the civilization and technological development.

Immigration

Is called immigration the travel into a country with the intention of living there permanently.

The Great Migration

The Great Migration was the movement of african american people from the rural Southern to the urban Northeast, Midwest and West.

Jim Crow Laws

Were laws that enforced the racism in the US.

Sundown Towns

Exclusion of non-white people.

Civil War

A lot of Americans died.

My Prediction in 25 Years

In my opinion, the US will not be the principal economy in 25 years. It is already a fact that China's economy is growing faster. But, on the other hand, I believe that the technology in US will grow and the society will be more autonomous.
