

WHY ARE THERE LESS FARMERS IN AMERICA THAN HAS EVER BEEN ?

Advances in technology throughout the years, such as new tools, advanced machines and agricultural robots have helped decrease the number of farms in America. These bigger advanced machines and robots are able to perform a much greater outcome in the business of farming than compared to the human force

TECHNOLOGY.

PEOPLE STARTED TO LEAVE THEIR OCCUPATION FOR THE MACHINES, SINCE THEY CAN CREATE FASTER AND BETTER RESULTS. BECAUSE OF THIS, THE NUMBER OF PEOPLE WHO WORKED IN FARMS DECREASE QUITE A LOT.

UNEQUAL PRODUCTIVITY BETWEEN FARMS.

THE IMPROVEMENT OF PRODUCTIVITY IN CERTAIN FARMERS, WOULD MAKE CERTAIN FARMERS ELIMINATE THEIR OPPONENTS IN THE BUSINESS OF FARMING AND SMALL FARMS WOULD LOSE THE COMPETITION AGAINST BIG FACTORIES, MAKING MANY SMALL FARMERS GIVE UP AND MOVE TO SOMETHING ELSE.

NEW JOBS.

THE INCREASE OF NEW JOBS AND NON-FARM EMPLOYMENT OPPORTUNITIES WITH A BETTER QUALITY OF WORK AND LESS STRESS, SINCE FARMING IS NOT EASY, AND CAN BE VERY STRESSFUL SOMETIMES.

TODAY, THE AMERICAN FARMS AND FARMERS RECEIVE ASSISTANCE FROM THE UNITED STATES DEPARTMENT OF AGRICULTURE, BY PROVIDING TECHNICAL ASSISTANCE SUCH AS LAND AND SAFETY, MAINTAINING A STRONG AND APPROPRIATE SAFETY NET FOR AMERICA'S FARMERS, AND TO ENSURE THAT AMERICA REMAINS THE WORLD LEADER IN CROP PRODUCTION, THE GOVERNMENT CONDUCT CUTTING-EDGE AGRICULTURAL RESEARCH. AND TO BUILD A STRONGER AGRICULTURAL ECONOMY FOR FUTURE GENERATIONS, THEY WORK TO IMPROVE BOTH DOMESTIC AND INTERNATIONAL MARKETS, TO CREATE NEW INCOME OPPORTUNITIES.

THE IMPROVEMENT OF FARMING USING TECHNOLOGICAL ADVANCES TO CREATE BETTER TOOLS AND FARMING INNOVATION HAS BOOSTED THE BUSINESS SIGNIFICANTLY, AND IT REALLY BEGAN TO PICK UP IN THE SECOND HALF OF THE 20TH CENTURY TO ONGOING THIS DAY OF AGE. THESE CHANGES MADE MANY PEOPLE LEAVE THEIR OCCUPATIONS IN THE FIELD OF FARMING BECAUSE ADVANCED MACHINES WERE ALREADY PERFORMING THEIR OCCUPATION, BUT IT ALSO MADE THE BUSINESS RUN MUCH FASTER, WHICH HAD A GREAT IMPACT ON THE GROWTH OF THE ECONOMY, BECAUSE WITH HELP OF THE TECHNOLOGY, THE PRODUCTION BECOMES EASIER, QUICKER AND MORE EFFICIENT COMPARED TO WHAT HUMANS CAN DO WITHOUT TECHNOLOGY

THE GOOD AND THE BAD OF THE VANISHING FARMERS

The problem of the decline of American farms, is that due to technological advances, only the big factories would stay at the top, meaning there would be less competition between farms.

The bright side is that many people also left farms seeking better jobs with a better quality or wage. And the agricultural robots made the USA economy stronger, which greatly impacted all American lives including the one who had to leave the farms due to the rise of technology, because when the economy is strong, the country runs as strong
